

TRUTHLENS AI

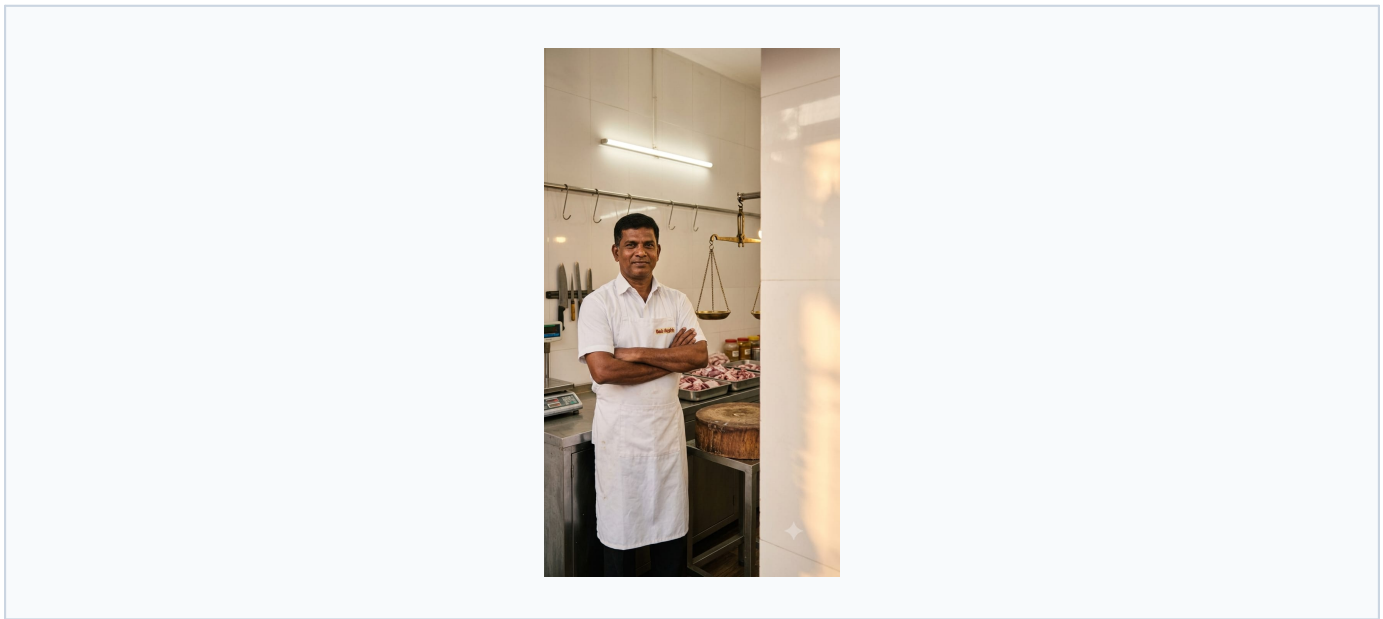

IMAGE AUTHENTICITY DETECTION REPORT

REPORT ID TL-20260905-170245-5719	GENERATED 05-09-2026 05:02:45 PM
--------------------------------------	-------------------------------------

01 | REPORT INFORMATION

Report ID	TL-20260905-170245-5719
Generated Date	05-09-2026
Generated Time	05:02:45 PM
AI Model	TruthLens AI Deep Learning Model
Detection Type	Image Authenticity Detection
Report Status	Completed

02 | ANALYZED IMAGE

Uploaded Image: 05a2040f-c4f1-4683-bbe6-9477a4a6e6b5.jpeg

03 | DETECTION RESULT

PREDICTION	CONFIDENCE	RISK LEVEL
FAKE	80.05%	HIGH RISK

Image Name	05a2040f-c4f1-4683-bbe6-9477a4a6e6b5.jpeg
Prediction	FAKE
Confidence Score	80.05%
Risk Assessment	HIGH RISK

04 | AI ANALYSIS SUMMARY

Classification: FAKE
Model Confidence: 80.05%
Risk Assessment: **HIGH RISK**

05 | ANALYSIS & RECOMMENDATION

Analysis	The AI model classified the uploaded image as FAKE . The detected visual patterns indicate characteristics that may be associated with AI-generated or manipulated content. Additional verification is recommended.
Recommendation	Verify the original source before sharing or using this image as evidence. Additional forensic analysis may be appropriate for critical applications.

06 | DISCLAIMER

This report was automatically generated by the **TruthLens AI Image Authenticity Detection System**. The prediction is produced using a deep learning model and represents AI-assisted analysis. It should not be considered legal, forensic, or definitive proof of authenticity. Prediction accuracy may be affected by image quality, compression, manipulation, resolution, and other image characteristics.
